Unidad Académica/Programa: Tecnología Médica
Año Académico¹ 2011-2012

Colegio Ciencias Recinto Ponce

HALLAZGO (NECESIDAD IDENTIFICADA)	ESTRATEGIAS / ACTIVIDADES	PERSONA/S RESPONSABLE	ITINERARIO DE ACCIÓN	RECURSOS HUMANOS Y FÍSICOS	RESULTADOS ESPERADOS	COSTO
1. 2008-2009, the Program began the first on-line hybrid course (MEDT 455 Urinalysis and Body Fluids) The curricular change affects the students' performance in this area of the ASCP/BOC.	The input of the students has been to change the course to a traditional one. It will be the recommendation of the faculty to continue a close evaluation on this course for the following year in order to make a final decision.	Prof. Waleska Alvarado	August 2012- July 2013		Student performance improvement in the ASCP/BOC specifically in the urine and body fluids area	
2. Improve Laboratory operation performance in ASCP/BOC	The following changes were introduced: a. A review on this area (Laboratory Operation) as part of our review week at the end of the clinical practice. b. The creation of two courses out of one. MEDT 453 Clinical Chemistry and Instrumentation course (5 credits) was split	Prof. Waleska Alvarado and Prof. Vivian Lind Prof. Vivian Lind	July 2011 & July 2012 August 2010		Student performance improvement in the ASCP/BOC specifically in the Laboratory operation area
